

Capture Assistant

Job Overview

Clear Angle Studios is a company based in Pinewood Studios which covers all aspects of scanning for VFX, from full 360 character scanning in its multi camera systems, LiDAR scanning of sets and environments to high resolution multi bracketed texture acquisition.

The Capture Assistant will support our on-set capture teams in the 3D scanning of production assets using Clear Angle Studios' character and prop scanning systems. They will assist in the building of our systems on set and also run regular maintenance tasks. The management of captured data including backing up, organising and logging of shoot data is a key part of this role as well as keeping up-to-date with technological advancements on Clear Angle Studios systems.

Responsibilities and Duties

- Assisting in the building and running of our full body systems on set/location.
- Assisting in the building and running of our prop scanning on set/location.
- Laser arm scanning of production props.
- Following and updating shoot logging spreadsheets.
- Communicating with the system lead, making sure of an efficient and smooth shoot session.

Qualifications

- The ability to troubleshoot simple technical issues.
- A basic knowledge of photography.
- A good understanding of the Windows operating system.
- Good PC skills and literacy.
- Good data management skills.
- A team player with excellent communication skills.
- Adaptable and flexible to schedule changes with a willingness to travel.
- Some knowledge of VFX use in films would be desirable.
- Full clean driving licence and means of transportation is a must.
