

Lidar Capture Technician

Job Overview

Clear Angle Studios is a company based in Pinewood Studios which covers all aspects of scanning for VFX, from full 360° character scanning in its multi camera systems, LiDAR scanning of sets and high resolution environments acquisition.

We are currently looking to expand our team in London and are looking for a Lidar Capture Technician to work on leading feature films (VFX). This will involve scanning and texturing film sets, environments and vehicles.

Responsibilities and Duties

- Capture Lidar data on Film Sets and Locations (both in the UK and around the World) to Clear Angle Studio Standards.
- Shooting Set Textures and Panoramas specifically for VFX.
- Registering Captured Lidar data In Leica Cyclone and assisting in delivering data within a short time frame.
- Organizing Textures and stitching Panoramas.
- Updating CAS Shoot Logs and other Shoot documentations.
- Liaising with clients during shoot to make sure we deliver the best service possible.
- Film environments will require you to be flexible and dynamic, as well as working under time pressures.
- Committed to making sure our clients needs are met on site.

Qualifications

- Meticulous data handling and attention to detail.
- Calm under pressure with good problem-solving skills.
- A team player with excellent communication skills.
- Adaptable and flexible to schedule changes with a willingness to travel.
- Ideal candidate must have a full clean driving license and ideally be living within or in close proximity to the M25 in order to get to the main Film Studios (Pinewood/Leavesden/Longcross) easily
- Past VFX experience not essential but advantageous, as is an understanding of Photography and/or LiDAR, experience with data capture using LiDAR scanning Units (Faro, Leica, Trimble etc.) and experience with registering laser scan data ideally with Leica Cyclone.
